

NextUp Mentor

Student Portal – Testing Guide

Please work through this from start to finish and tick each box. It takes about 20 minutes. Where something does not match what is described, write what you saw in the notes space – that is the part we most need.

WHERE TO TEST

nextupmentor.com/portal

Open it on your phone. That is how students will use it.

WHAT YOU NEED

A Gmail account you can sign into.

Any photo on your phone for the upload test.

Please read this first – this is the real system, not a copy

Anything you do here is real. Signing up creates a genuine student record, and booking a call puts a genuine appointment in a mentor's diary. That is deliberate – we want to test what students will actually meet.

Two things to keep in mind:

1. Do not upload a real passport, bank statement or any document with personal details. Any random photo is fine for testing.
2. Tell us which Gmail you used, so we can remove your test record afterwards.

One thing we already know about

When Google asks for permission, it will say **owinapacuwyywxmlzomrr.supabase.co** rather than NextUp Mentor. It looks odd, and it is being fixed. It is safe – please carry on and do not report it.

Part A – Signing up as a new student

This is the first thing a student ever sees. It matters most.

#	WHAT TO DO	WHAT SHOULD HAPPEN	OK?
A1	On your phone, open nextupmentor.com/portal	A dark page: “ <i>Your file, whenever you want it.</i> ” with a Continue with Google button.	[]
A2	Tap Continue with Google and choose your account	Google asks permission, then brings you back to NextUp. You are not asked to create any password.	[]
A3	Read the first question screen	It asks your name (already filled in from Google), whether you want a Bachelor's or Master's, and which countries interest you.	[]
A4	Pick a level and one or more countries, tap Continue	A list of mentors, each showing how many free times they have.	[]
A5	Choose a mentor	Their available days and times appear, grouped by date.	[]
A6	Tap a time	A confirmation: “ <i>You're booked.</i> ” showing the day, time and mentor you chose.	[]
A7	Tap Go to my file	Your file opens. The heading says your application is under way and the bar at the bottom shows File, Papers, Meetings, You.	[]

Tell us honestly

Was anything confusing? Did you have to stop and think about what a question meant? Was any wording strange or too formal? Write it down – this is the screen where we lose people.

Part B – Looking around your file

#	WHAT TO DO	WHAT SHOULD HAPPEN	OK?
B1	Read the File tab from top to bottom	A sentence saying where you are, a line saying Waiting on someone, and a list of the stages with your enquiry date filled in.	[]
B2	Check the Waiting on line	It names who currently holds things – you, your consultant, the universities or the embassy. It should be obvious whether anything is your job.	[]
B3	Open the Meetings tab	The call you booked in Part A, with the correct day and time.	[]
B4	Open the Papers tab	Because your file is new, it should say your checklist opens once a consultant starts your visa file. An empty list here is correct.	[]

#	WHAT TO DO	WHAT SHOULD HAPPEN	OK?
B5	Open the You tab	Your name, email, a file reference like NX-2026-XXXX, and your consultant.	[]
B6	Tap Add a photo and pick any picture	It uploads and appears as a round photo within a few seconds.	[]
B7	Add a WhatsApp number and an IELTS score, tap Save changes	The button briefly reads Saved .	[]
B8	Type 11 as the IELTS score and save again	It refuses, saying the score must be between 0 and 9. This is meant to happen.	[]

Part C – Leaving and coming back

A student will close this and come back days later. It has to remember them.

#	WHAT TO DO	WHAT SHOULD HAPPEN	OK?
C1	On the You tab, scroll down and tap Sign out	You are returned to the sign-in page.	[]
C2	Tap Continue with Google and pick the same account	You go straight to your file . You are not asked the sign-up questions again, and your photo and details are still there.	[]
C3	Close the browser completely, reopen it, go to nextupmentor.com/portal	You are still signed in and land on your file.	[]

If you have a second Gmail, please try this

Sign out, then sign in with a **different** Google account. You should be treated as a brand new student and asked the sign-up questions again. **You must not see the first account's file, name or photo.** If you do, stop testing and tell us at once – that is the most serious thing that could go wrong.

Part D – How it feels

Not pass or fail, just your opinion. Be blunt; polite answers are not useful to us.

- Did it feel like something you would trust with your money and your passport? If not, what made you doubt it?

- Was any screen slow, or did anything sit loading for too long?

- Was any text too small, cut off, or hidden behind the bottom bar on your phone?

- If a friend was applying abroad, would you be comfortable showing them this?

- What is the single thing you would change first?

Part E – Phones and screens

Most students will be on a mid-range Android on mobile data. If you can, check on more than one device.

#	WHAT TO DO	WHAT SHOULD HAPPEN	OK?
E1	Turn your phone sideways on the File tab	The layout still fits. Nothing is cut off and you never scroll sideways.	[]
E2	Open the same page on a laptop if you have one	It stays centred and readable rather than stretching across the whole screen.	[]
E3	Switch off Wi-Fi and use mobile data	Pages still load in a reasonable time.	[]

Reporting anything that went wrong

For each problem, the three things that help us most are: **which step number**, **what you expected**, and **what actually happened**. A screenshot is worth more than a description – please take one whenever something looks wrong.

ALSO TELL US	WHY WE NEED IT
The Gmail address you tested with	So we can find and remove your test record afterwards
Your phone model and browser	Some faults only appear on certain phones
Roughly what time you tested	So we can match it to our own logs

Notes

Thank you. Finding something broken here is genuinely more useful to us than finding nothing at all.
